

WOODEN SHOE TULIP FARM

*33814 S Meridian Rd
Woodburn, Oregon 97071*

Dear Potential Fundraiser,

We can offer you a fun, easy, and calorie free way to earn money and bright up someone's day! With a variety of colors and up to two weeks of bloom, who can say no to a fresh bouquet of tulips? Valentine's Day, Easter, and wiping away the winter blues, Tulips are great for all occasions.

We have tulips available starting in January and available through the end of April. They come in pre-package bunches of ten stems in a bunch and have printed instructions of how best to take care of them to make them last.

We sell bunches of tulips to you at a discounted price and the return in a 100% mark-up. (For example, if the tulips cost you \$2.50 we suggest selling them for \$5.00 and therefore you would earn \$2.50 for each bouquet sold). January through the middle of March; (weather dependent) the tulips are from our greenhouses and therefore cost a little bit more than during April when they come out of the field.

The easiest way to get a cut tulip fundraiser going is to use the attached spreadsheet and take pre-orders; we have listed the basic colors available January-April. Once you have a total of all the bunches and colors needed, give us a call or email; 2-3 days preferred before you are planning to hand them out; and we will box them up, and have them ready for you to pick-up. Payment is due at pickup and getting them back to your buyers is up to you.

If you have any other questions or concerns feel free to email at office@woodenshoe.com or give us a call: 1-800-711-2006, and Good Luck!

Thank you!
